

# Project API 02

---

- se agrega [] en vite.config  
base: "https://slinkter.github.io/myprojectapi0x",
- se instala paquete de github  
npm i --save-dev gh-pages
- ir a package.json predeploy y deploy

```
"scripts": {  
  "dev": "vite",  
  "build": "vite build",  
  "lint": "eslint . --ext js,jsx --report-unused-disable-directives --max-warnings 0",  
  "preview": "vite preview",  
  "predeploy": "npm run build",  
  "deploy" : "gh-pages -d dist"  
},
```

- y ejecutar en terminal

npm run deploy

The screenshot shows a web interface with a light gray background. At the top, there is a login section with the text "Ingreso id user:" and a text input field containing the number "1". Below this is a white card displaying user information: "Name : Leanne Graham", "Email : Sincere@april.biz", and "Phone : 1-770-736-8031 x56442". At the bottom, there is another white card containing several lines of placeholder text in Latin, such as "sunt aut facere repellat provident occaecati excepturi optio reprehenderit".
